

Speech Pathology Associates, Inc

“Getting to the Heart of Communication”

COMMUNICATE PLAY LEARN

The purpose of our Toddler Language Group is to facilitate the development and generalization of speech, language, play, and social-pragmatic skills within the context of a naturalistic peer-driven environment. It is through play that children learn language. With this in mind, it is our goal to create an environment that allows for plenty of play time that is filled with opportunities to laugh, share, take turns, move around, sing, read stories and practice, practice, PRACTICE developmentally appropriate language skills.
